FOREWORD

The Georgia Statistical Abstract, which is published biennially, brings together in one reference volume the most pertinent information available about the state of Georgia.

Although the orientation of the Abstract is primarily economic -- with special emphasis upon economic resources -- other community and area resources are encompassed in the Government section and in the Education and Law Enforcement sections. Several parts of this Abstract are revised and expanded, particularly the Population and Vital Statistics sections and the chapter on Income, Gross State Product, and Wealth.

Special acknowledgement must be made of the efforts of the following persons who contributed to this major undertaking: Nancy Gallo, data specialist, for extensive revision of the Population and Vital Statistics sections; Gene Wallace of the State Department of Education; and Mary Evans, for typing the Abstract in its entirety.

Since most of the data in the Abstract are taken from sources outside the Division, the responsibility for the accuracy and limitations of the original data belongs to the original sources. For the selection of the data and their reproduction, the Division of Research accepts the responsibility.

[a] The 1950 Census of Population incorporates a new defnition of urban territory. Prior to 1950 the definition was limited to incorporated placed having a population of 2,500 or more. The new definition includes, in addition, unincorporated places having a population of 2,500 or more, and the densely settled urban fringe around cities of 50,000 or more.

[b] Follows old definition.

[c] Follows new definition.

Note: U.S. includes Alaska and Hawaii beginning in 1960.

[a] Personal income = net earnings plus property income and transfer payments. Prior to 1975, estimates are based on 1967 SIC; after 1975, estimates are based on the 1972 SIC.

[b] Personal contributions for social insurance are implicitly included in the estimates of labor and proprietors' income. However, they are not included in personal income and so are subtracted from earnings in the computation of personal income.

TABLE 21.121 (Continued)

THE VOTER'S RESPONSIBILITY IN GEORGIA: ELECTION AREAS AND ELECTED OFFICIALS

[a] These include the Lieutenant Governor, 6 other statehouse officials, and 5 members of the Public Service Commission.

[b] See Chart 21.203 for a map of these districts and the population of each.

[c] See Chart 23.312 for a map of these circuits and the number of judges in each circuit.

[d] See Chart 21.202 for a map of these senatorial districts.

[e] See Chart 21.201 for a map which shows the number of Representatives from each county or district.

[f] The 1945 and 1976 Constitutions abolished sub-county school districts except for existing independent (city) systems. There are 29 of these independent systems at present.

[g] Incorporated municipalities. U. S. Bureau of the Census, *1977 Census of Governments*, Governmental Organizations, Georgia.

[h] The *Census of Population, 1950*, listed 1647 militia districts in Georgia. Neither the *1977 Census of Governments* nor the 1970 *Census of Population* listed militia districts in the state.

[i] The Georgia Constitution provides that the General Assembly may abolish Justice of the Peace Courts within any city with a population of over 20,000 and throughout the county in any county having within its borders a city of over 20,000 population and may establish instead any court or courts it deems necessary. Under this provision, Justice of the Peace courts have been abolished entirely in Bibb, Chatham, Clarke, Dougherty, Glynn, and Muscogee counties, and also within the city limits of Atlanta and Augusta. A militia district may also have a Notary Public ex officio as Justice of the Peace to conduct a second Justice of the Peace Court where it is deemed necessary, appointed by the Judge of the Superior Court upon recommendation of the Grand Jury.
